**OBJECTIONS AND ANSWERS TO MEDIA ACTION CENTER AND SUE WILSON'S
FIRST SET OF INTERROGATORIES TO ENTERCOM LICENSE, LLC**

Entercom License, LLC ("Entercom"), pursuant to 47 C.F.R. § 1.323 and the Presiding Judge's Order, FCC 16M-33 (rel. Dec. 1, 2016), as corrected in FCC 16M-35 (rel. Dec. 8, 2016), hereby submits its objections and answers to Media Action Center and Sue Wilson's 1) (collectively, "MAC") First Set of Interrogatories ("MAC Interrogatories").

GENERAL OBJECTIONS

1. Entercom objects to each interrogatory to the extent that it seeks irrelevant information or is not reasonably calculated to lead to the production of relevant evidence.
2. Entercom objects to each interrogatory to the extent that it is seeking information related to issues expressly excluded from this hearing. The Commission's rules limit the scope of interrogatories to "any matter, not privileged, which is relevant to the hearing issues." 47 C.F.R. § 1.311(b). While MAC alleged public file violations in its Petition to Deny the 2013 Application, the Commission concluded that MAC did not "set forth facts sufficient to raise a substantial and material question of fact whether Entercom" violated the public file requirements and that MAC's contentions were "circumstantial and speculative." *Entercom License, LLC*, 31 FCC Rcd 12196, 12207-08 ¶ 28 (2016) ("*Entercom HDO*"). The Commission therefore "reject[ed]" the MAC Petition to the extent that it raised the completeness of KDND's public file, and expressly declined to designate a public inspection file issue for hearing. *Id.* at 12207-

08 ¶ 28, 12229-30 ¶ 83. The general references to “the totality of the circumstances” in designated issues (h) and (i), *id.* at 12230 ¶ 83, are insufficient to allow MAC to revisit the Commission’s finding.

3. Entercom objects to each interrogatory to the extent that it is overly broad or burdensome.

4. Entercom objects to each interrogatory to the extent that it seeks information that is already in MAC’s possession or otherwise readily available to MAC through public means.

INTERROGATORY NO. 1: Identify each Person who had input of any kind to the certification, Yes, in response in the Pending Applications, Sec. III, Question 3 (local public file).

5. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 1 because it is irrelevant and is not reasonably calculated to produce relevant information. Entercom objects to Interrogatory No. 1 because it is seeking information regarding an issue the Commission expressly declined to designate for hearing. Identifying each Person who had any input of any kind to the public file certifications in the Pending Applications relates to an issue the Commission chose not to designate for hearing and is thus not relevant to any issue designated for hearing and is not reasonably calculated to produce relevant information.

INTERROGATORY NO. 2: With respect to the certifications of Section III, Question 3, identify the person most knowledgeable about the contents of the public file.

6. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 2 because it is irrelevant and is not reasonably calculated to produce relevant information. Entercom objects to Interrogatory No. 2 because it is seeking information regarding an issue the Commission expressly declined to designate for hearing. Identifying the person most knowledgeable about the contents of the public file is not relevant to

any issue designated for hearing and is not reasonably calculated to produce relevant information.

INTERROGATORY NO. 3: In the 2013 Application, Exhibit 12, identify all files and records reviewed for preparing and completing this Exhibit.

7. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 3 because it is irrelevant and is not reasonably calculated to produce relevant information. Entercom objects to Interrogatory No. 3 because it is seeking information regarding an issue the Commission expressly declined to designate for hearing. Exhibit 12 in the 2013 Application explains the licensee's public file certification in Section III, Question 3 of the application. Identifying all files and records reviewed for preparing and completing Exhibit 12, which explains the public file certification, is not relevant to any issue designated for hearing and is not reasonably calculated to produce relevant information.

INTERROGATORY NO. 4: In the 2013 Application, Exhibit 12, identify all persons who are the "current employees" inquired of in the preparation of this Exhibit, and the beginning and ending dates of their employment with Entercom.

8. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 4 because it is irrelevant and is not reasonably calculated to produce relevant information. Entercom objects to Interrogatory No. 4 because it is seeking information regarding an issue the Commission expressly declined to designate for hearing. Identifying all persons who were "current employees" inquired of in preparation of Exhibit 12, which explains the public file certification, is not relevant to any issue designated for hearing and is not reasonably calculated to produce relevant information. Separately, the beginning and ending dates of such "current employees" employment with Entercom is not relevant to any issue designated for hearing and is not reasonably calculated to produce relevant information.

INTERROGATORY NO. 5: Identify all persons who participated in the research, reporting, or drafting of the 2013 Application, Exhibit 12.

9. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 5 because it is irrelevant and is not reasonably calculated to produce relevant information. Entercom objects to Interrogatory No. 5 because it is seeking information regarding an issue the Commission expressly declined to designate for hearing.

Identifying all persons participated in the research, reporting, or drafting of the 2013 Application, Exhibit 12, which explains the public file certification, is not relevant to any issue designated for hearing and is not reasonably calculated to produce relevant information.

INTERROGATORY NO. 6: During the Relevant License Term, identify each person most responsible for the maintenance of the Station local public inspection file, together with the beginning and ending date of their primary responsibility.

10. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 6 because it is irrelevant and is not reasonably calculated to produce relevant information. Entercom objects to Interrogatory No. 6 because it is seeking information regarding an issue the Commission expressly declined to designate for hearing.

Identifying “each person most responsible for the maintenance of the Station local public inspection file” is not relevant to any issue designated for hearing and is not reasonably calculated to produce relevant information. Separately, the beginning and ending dates of such employees’ primary responsibility for the local public file is not relevant to any issue designated for hearing and is not reasonably calculated to produce relevant information.

INTERROGATORY NO. 7: As to each person identified in the previous interrogatory, state whether they were primarily responsible for the maintenance of any other local public inspection file of Sacramento Cluster Stations.

11. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 7 because it is irrelevant and is not reasonably calculated to produce relevant information. This question seeks information regarding stations other than KDND. As the *Entercom HDO* explains, however, “for renewal purposes, Section 309(k)(1)

limits the scope of [the Commission's] review to the station for which license renewal is being considered." *Entercom HDO*, 31 FCC Rcd at 12207-08 ¶ 28; 47 U.S.C. § 309(k)(1). In short, the limited scope of the Commission's review of station KDND's renewal application does not include Entercom's operation of any station other than KDND. Thus, to the extent that Interrogatory No. 7 is seeking information about stations with renewal applications that are not included in the *Entercom HDO*,¹ it is not relevant and is not reasonably calculated to produce relevant information. To the extent that Interrogatory No. 7 seeks information regarding station KDND, Entercom objects to Interrogatory No. 7 because it seeks information related to an issue the Commission expressly declined to designate for hearing.

INTERROGATORY NO. 8: Identify by station the local public station file of each station of the Sacramento Cluster Stations currently maintaining a hard copy file for public inspection.

12. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 8 because it is irrelevant and is not reasonably calculated to produce relevant information insofar as it is seeking information related to stations other than KDND. To the extent Interrogatory No. 8 seeks information regarding KDND, Entercom objects to Interrogatory No. 8 because it seeks information related to an issue the Commission expressly declined to designate for hearing.

INTERROGATORY NO. 9: Identify by station the local public file of each station of the Sacramento Cluster Stations currently maintaining an on-line local file for inspection.

13. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 9 because it is irrelevant and is not reasonably calculated

¹ Subsequent to the filing of the MAC Interrogatories, MAC filed its Motion to Enlarge effectively recognizing that the *Entercom HDO* excludes the other Entercom Sacramento stations. Petition to Enlarge Issues by Media Action Center and Sue Wilson, filed Jan. 9, 2017, at non-paginated page immediately preceding page 1.

to produce relevant information insofar as it is seeking information related to stations other than KDND. To the extent Interrogatory No. 9 seeks information regarding KDND, Entercom objects to Interrogatory No. 9 because it seeks information related to an issue the Commission expressly declined to designate for hearing. Entercom also objects to Interrogatory No. 9 because the requested information is readily available to MAC through public means. By its very nature, an online public inspection file is readily available through public means.

INTERROGATORY NO. 10: Identify all documents in a local public inspection file of any Sacramento Cluster Stations that are contained in an on-line public file but not in a hard-copy local public file.

14. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 10 because it is irrelevant and is not reasonably calculated to produce relevant information insofar as it is seeking information related to stations other than KDND. To the extent Interrogatory No. 10 seeks information regarding KDND, Entercom objects to Interrogatory No. 10 because it is seeking information regarding an issue the Commission expressly declined to designate for hearing. Whether any documents are contained in an online public file but not in a hard-copy local public file is not related to an issue designated for hearing and is not reasonably calculated to produce relevant information.

INTERROGATORY NO. 11: Identify all documents in a local public inspection file of any Sacramento Cluster Stations that are contained in a hard copy public file but not in an on-line local public file.

15. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 11 because it is irrelevant and is not reasonably calculated to produce relevant information insofar as it is seeking information related to stations other than KDND. To the extent Interrogatory No. 11 seeks information regarding KDND, Entercom objects to Interrogatory No. 11 because it is seeking information regarding an issue the Commission expressly declined to designate for hearing. Whether any documents are contained

in a hard copy public file but not in an online public file is not related to an issue designated for hearing and is not reasonably calculated to produce relevant information.

INTERROGATORY NO. 12: Identify all documents that were removed from Station KDND's public file during the relevant license term and prior to the filing of the 2013 Application.

16. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 12 because it is irrelevant and is not reasonably calculated to produce relevant information. Entercom objects to Interrogatory No. 12 because it is seeking information regarding an issue the Commission expressly declined to designate for hearing.

Whether any documents were removed from KDND's public file is not relevant to any issue designated for hearing. Entercom objects to Interrogatory No. 12 because it is overly broad and burdensome. Entercom objects to Interrogatory No. 12 to the extent that it demands Entercom to prove a negative, i.e., documents that are not in the public file.

INTERROGATORY NO. 13: Identify by station call sign and active dates of use all FCC public inspection files maintained by Entercom Sacramento at 5345 Madison Avenue, Sacramento, CA.

17. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 13 because it is irrelevant and is not reasonably calculated to produce relevant information insofar as it is seeking information related to stations other than KDND. To the extent Interrogatory No. 13 seeks information regarding KDND, Entercom objects to Interrogatory No. 13 because it is seeking information regarding an issue the Commission expressly declined to designate for hearing. Whether and when Entercom Sacramento maintained public inspection files at 5345 Madison Avenue, Sacramento, CA is not related to an issue designated for hearing and is not reasonably calculated to produce relevant information.

INTERROGATORY NO. 14: As to each public file identified in the previous question, identify the Person most knowledgeable about the contents of that file, and the Person most responsible for maintenance of the file.

18. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 14 because it is irrelevant and is not reasonably calculated to produce relevant information insofar as it is seeking information related to stations other than KDND. To the extent Interrogatory No. 14 seeks information regarding KDND, Entercom objects to Interrogatory No. 14 because it is seeking information regarding an issue the Commission expressly declined to designate for hearing. Identifying each person who is most knowledgeable about the contents of certain Entercom Sacramento public files is not relevant to any issue designated for hearing and is not reasonably calculated to produce relevant information.

INTERROGATORY NO. 15: Identify all public communication, by e-mail, letter, or document memorializing telephone conversation, and commenting, discussing, criticizing or commending any program broadcast, received by the Station during the Relevant License Term.

19. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 15 because it is overly broad and burdensome. Entercom objects to Interrogatory No. 15 because, to the extent that it is designed to elicit information about KDND's compliance with the public inspection file rule, an issue the Commission expressly declined to designate for hearing, it is irrelevant and not reasonably calculated to produce relevant information. Entercom objects to Interrogatory No. 15 to the extent it is seeking letters and email communications more than three years old. *See* 47 C.F.R.

§73.3526(e)(9)(i) ("Letters and electronic messages shall be retained for a period of three years from the date on which they are received by the licensee.") Subject to these objections and without waiving them, Attachment A to these Responses and Objections identifies all public

communications commenting, discussing, criticizing, or commending any program broadcast by the Station that were in KDND's public inspection file as of January 6, 2016.

INTERROGATORY NO. 16: Identify all public communication, by e-mail, letter, or document memorializing telephone conversation, and commenting, discussing, criticizing or commending any program broadcast received by any of the Sacramento Cluster Stations during the period since the grant of that' station's latest license renewal application.

20. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 16 because it is irrelevant and is not reasonably calculated to produce relevant information insofar as it is seeking information related to stations other than KDND. To the extent Interrogatory No. 16 seeks information regarding KDND, Entercom objects to Interrogatory No. 16 because, to the extent it is designed to elicit information about KDND's compliance with the public inspection file rule, an issue the Commission expressly decline to designate for hearing, it is irrelevant and is not reasonably calculated to produce relevant information.

INTERROGATORY NO. 17: With respect to the statement in Entercom's Annual Report, 12-31-2015: "We are currently the subject of several pending investigations by the FCC, including one involving a death following a contest at one of our stations." Identify each such investigation, other than the investigation of the homicide discussed in the Hearing Designation Order in MB Docket 16-357.

21. Entercom incorporates its General Objections as if fully set forth herein.

Entercom objects to Interrogatory No. 17 to the extent it is irrelevant and is not reasonably calculated to produce relevant information. Entercom objects to Interrogatory No. 17 because it is seeking information regarding an issue the Commission expressly declined to designate for hearing. FCC investigations of stations other than KDND are outside the scope of the Commission's review for license renewal purposes and, therefore, are not relevant. Subject to those objections and without waiving them, Entercom states that none of the referenced FCC

investigations, other than the contest investigation that is identified in the *Entercom HDO*,
involve KDND.

Respectfully submitted,
